

Bullard's Guarantee: Show / Breeding Stock

Any puppy/dog that is returned within 14 days of above purchase date with original registration and paper work aka puppy's folder and a Certificate of Health from a veterinarian will receive a full refund.

Dogs up to two years of age for the following: Hip Dysplasia, Generalized Demodex, Luxating Patellas, Deafness (both ears) Heart Disease, Renal Failure. With proof from a Doctor of Veterinarian Medicine **will be replaced with a puppy of the same value.**

If said dog is bred before tested then this guarantee does not apply. Bullards encourages you to test before you breed.

Temperament: First, and most importantly, all puppies must be properly socialized. We only replace dogs for temperament if the dog is returned to us at the owner's expense, with registration papers, and **intact** (not spayed or neutered). As breeders, we retain the right to evaluate the dog's temperament and, place it in a pet home of our choice, or re-sell said dog, or put said dog down. A replacement pup of equal value will be sent to the owner, at the owner's expense, as soon as one becomes available. People may also choose to wait for a more suitable time for a replacement. If the owner decides the Australian Cattle Dog / Bull Terrier breed is not good for them, and does not want a replacement pup, they forfeit their investment. **No cash refunds.**

Of course, we will always take back any dog we have bred, if the owner cannot keep it for any reason. Again, shipping would be at the owner's expense, we would owe

nothing to the owner since it is a rescue situation, and we reserve the right to decide what to do with the dog.

Proverbs 12:10
